

FILBERG HERITAGE LODGE AND PARK ASSOCIATION

Maintenance and Restoration Report

May, 2021

As a result of COVID 19 and financial restrictions, many of the projects that were scheduled as part of the 5 Year Maintenance and Restoration Plan were put on hold. However, we were able to complete the roof on the Summer Kitchen which has provided covered dining during COVID restrictions. The Town Parks Department replaced the roof on the hay shed. Also, the Arbour Replacement Project which is being funded by the Courtenay Rotary Club, is scheduled to be completed this spring once the permit process is completed. Generally, the buildings and structures in the Park are in good condition and we look forward to getting back to a new normal.
